

Fast-track your study with the Single-Cell Multiomics Research Award!

Brought to you by National Genomics Infrastructure (NGI), SciLifeLab and BD Biosciences, this award provides a fast-track option to generate data, either to enhance existing studies and/or to support future funding applications.

Supply your abstract and you could be awarded:

- Four reactions from the BD OMICS-One™ WTA Next Amplification Kit
- 1 x BD Rhapsody™ Enhanced Cartridge Reagent Kit V3
- 1 x BD Rhapsody™ 8 Lane Cartridge
- 1 x BD Rhapsody™ cDNA Kit
- Support and troubleshooting for sample preparation
- Consumables, QC, and plastics up until the point of library sequencing is included
- Basic analysis on BD Rhapsody™ pipeline and BD Cellismo™ Data Visualization Tool included
